Greenfield, IN 46140

Re: For the Information of the Board- Well Site Survey

Mayor and Board Members,

We are progressing on the replacement well for the North Well Field. We are entering the phase of work that involves permitting, and design of this new site for a Public Water Well. This permitting requires a Hydro-geologist to prepare specific information as required by the Indiana Department of Environmental Management. Peerless Mid-west is the company the Water Utility contracts for our well and pump work and Tim Northam is their senior Hydro-geologist. Tim has been working with us on this project since the need to replace the well was identified.

Since we are working as quickly as possible to get the new well online by May 2019 we needed to have the well site survey drafted and sent into IDEM as there is a 30 day review process after submission of a site plan. I authorized Mr. Northam to proceed with the permit development and submission for \$3,215. This permit application was completed and send into and we are currently awaiting for a site inspection and IDEM approval. I have attached the signed quote to this letter and I welcome any questions the Board may have.

Respectfully Submitted,

Charles Gill  
Water Utility Manager

cc: Mike Fruth, Utility Director  
Lori Elmore, Clerk-treasurer

**RE: Proposal for Completing a New Well Site Survey Application, Proposed IMI Well 3,  
Greenfield Water Utility, Greenfield, Indiana**

Dear Charles:

Peerless-Midwest, Inc. (PMI) appreciates this opportunity to provide professional hydrogeologic consulting services to Greenfield Water Utility (the Utility). Our scope of work is summarized below.

**SCOPE OF WORK**

PMI will stake the production well location and complete the Indiana Department of Environmental Management (IDEM) required New Well Site Survey (NWSS) application. PMI can complete the application within 7 days following your notification to proceed. The estimated time for IDEM approval of the NWSS is 30 days following submittal of the application. Once the IDEM NWSS permit is obtained, the permanent production well can be constructed. The estimated not to exceed total for the proposed scope of work is **\$3,125**.

If this agreement meets with your approval, please sign the attached and return a copy for our files. Should you have any questions, please call.

Sincerely,

**PEERLESS-MIDWEST, INC.**

Tim Northam, P.G.  
Manager of Hydrogeologic Services

17707 Sun Park Drive, Westfield, IN 46074 Phone (317) 896.2987 Fax (317) 896.3748

**TERMS & ACCEPTANCE**

All pricing is based upon acceptance within 30 days of this date and may be modified if not accepted within this time frame. Quoted prices do not include Indiana state sales tax on materials, which will be itemized separately from labor and service when the work is billed.

Terms are net and not subject to discount, and invoices are to be paid in full without retainage within 30 days of presentation. All invoices not paid within 30 days will be subject to 2% per month service and handling fees, plus any court and/or attorney fees required for collection.

**ACCEPTED** this 12th day of November, 2018.
