Re: Change order for Well House

February 12, 2019

Mayor and Board Members,

We have contracted EFI to build our new well house with all the components needed to run the well station as soon as it is delivered and connected. We have identified a need to have EFI design and install a cross the line starter to act as a back up to the normal starter if it should suffer a critical failure. This change order reflects the additional work necessary to install this electrical equipment.

I would request the Board Approve this change order for \$10,536 to design and install the cross the line starter for Well 1-3. This will make the total amount of the project \$159,305.00.

I welcome any questions the Board may have on this recommendation.

Respectfully Submitted,

A handwritten signature in black ink, appearing to read "Charles Gill".
