Our Mission

The Evidence Management Institute (EMI) exists to engineer a change in law enforcement culture with respect to property and evidence management, and to ensure justice for all stakeholders in the evidence process.

Everything we do at EMI is focused on helping our clients meet the changing demands of the justice system. As a core part of our business, we deliver standard-setting evidence management training for evidence custodians in a relevant and engaging two-day training class at locations across the United States.

Evidence Management Professional Training

EMI provides comprehensive and relevant evidence management training for evidence professionals. Our training meets the unique and changing needs of today's evidence room operations.

The two-day EMI Evidence Management Professional Certification class focuses on principles, processes and problem-solving. EMI training equips evidence personnel with the essential knowledge and skills required to ensure the integrity of all of the evidence in your agency's property room.

Curriculum Distinctives

- Curriculum driven by our mission to elevate the industry and ensure the integrity of evidence for all stakeholders in the justice system.
- Designed around EMI Evidence Management Standards and Best Practices to provide participants with a blueprint to transfer class knowledge into sustainable and efficient operations.
- A leading-edge, current and relevant curriculum that facilitates interactive class participation and engages the learner with activities directly applicable to their agency's operation.
- EMI training will focus on an integrated, systematic approach for evidence management.
- EMI training fills existing knowledge gaps in the area of digital evidence management and teaches participants how to incorporate emerging and existing technology into evidence operations.
- The two-day EMI Evidence Professional Certification class affords participants the option to test and obtain certification immediately upon completion of the training course without waiting for an additional year of service time.
- Participants will leave the class with a specific tool box of reference materials and resources to evaluate and improve their own operations.
