Re: Training Fence Security Fence

July 9, 2019

Mayor and Board Members,

The training field located to the East of the Water Utility Administration Building is used by Power and Light and the Water Department for physical skills training on heavy equipment and apprentice skills testing. We have had security concerns in the past with non-city employees gaining access to this training at various times. We would like to fence this area off from the public to protect non-city employees from any potential injury. The map attached on the quote shows the installation of the new fence. The Water Department will remove the existing fence at the east edge of our lay down yard.

We had requested quotes from three companies, and only two responded. K&K is the lowest, responsible of the two companies. P&L is going to pay for the project. I request the board approve the quote from K&K to install new security fence at a cost of \$14,920.

I welcome any questions the Board may have on this recommendation.

Respectfully Submitted,

A handwritten signature in black ink, appearing to read "Charles Gill".
