

12/14/2020

Chief Rasche,

I'm regretfully writing to inform you that I am resigning from my position as a Patrolman with the Greenfield Police Department, effective December 28, 2020. I am thankful for the opportunity to work with the great men and women of GPD. All of the Officers I've worked with have been quick to treat me as if I had worked with them for years. Being hired by this department, I looked forward to advance my career with a department with integrity and opportunities to further my training. My short time with GPD, I know that this department would be a great fit for these goals. Unfortunately life and the opportunities presented work in mysterious ways. On 12/01 my fiancé and I were presented an opportunity to make a huge step in our lives that will benefit our careers as well as our personal lives. The past year has taught us so many things and has turned an area we once called home into a personal nightmare. My fiancé was accepted into an aviation program in San Diego, California using his military GI bill. We are taking this as a time to start over and create a future in a new home. I don't know what Police Department I will continue my career with yet, but I hope that I can find a place as welcoming and promising as Greenfield Police Department.

Sincerely,

A handwritten signature in black ink, appearing to read 'Ashley Gravely', with a stylized flourish at the end.
