Re: Confined Space Entry Equipment

Mayor and Board Members,

The confined space entry equipment that our crews use is in need of replacement. We had Jason Horning and Chris Faust from the Fire department inspect our equipment and they both agreed that it should be replaced.

At this time, I am requesting permission to seek pricing for the replacement of our confined space equipment and open these at the next Board of Public Works and Safety meeting on May 11, 2021. Please let me know if you have any questions regarding this request.

Best Regards,
